23. Problem: (use additional Sheets if necessary)
The current Roguewave version, Edition 2, has reached end of support. Edition 4 is the only supported version. This must be compiled and evaluated in the IDG cell before it can be automounted for compilation with ECS code.

24. Proposed Solution: (use additional sheets if necessary)
1) Install roguewave source code and RCB (resource component builder) files in /data on jenga and /data on scully

25. Alternate Solution: (use additional sheets if necessary)
None

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
We would have to use some other machines for the upgrade, or forego testing in the IDG cell as per the standard COTS upgrade process.
